Art Unit: 1616

Receipt is acknowledged of amendment, appendices and arguments of 9/27/04.

Applicant's remarks and identification of support are appreciated and are sufficient to satisfy requirements under 35 USC 112; these rejections are withdrawn. The issue of providing a supplementary oath remains; however, we do not see the case as allowable at this instant.

Claims 8 is rejected under 35 U.S.C. 102(b) as being anticipated by Hutchings 4861514 or Sperti et al 4477361.

The rejections records are maintained.

Applicants arguments are not persuasive; it is true Hutchings and Sperti are free of insects, but the amount of a composition, and recitation of its intended function are not of patentable weight; all the ingredients at the required concentration of cinnamic aldehyde are in Hutchings soaps, and if used in the alluded to method of claim 8, would do whatever applicants composition is sufficient to do sperti also provides the composition even if the insects are not there.

However, we agree with applicant that the cited prior art does not provide the methods, nor provide immediately envisioned compositions as baits now claimed.

Claims 1, 4, 5, 7, 12-14, 16, 19-24 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1616

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
